

Facilities for the aseptic

How many clean rooms for the aseptic preparation of drugs do you have within the hospital pharmacy?

How old is each clean room? (Time in years since facility was commissioned)

How many sterile cabinets / isolators are there in the hospital pharmacy for aseptically preparing drugs?

How old is each cabinet / isolator? (Time in years since each cabinet / isolator was commissioned)

When was each cabinet / isolator last shut down for maintenance or repairs for a period greater than 5 days (Year and Month of shutdown)

Does the hospital pharmacy have a documented contingency plan in place for the shutdown of the aseptic clean rooms (whether for maintenance or repairs) where this is expected to last longer than 5 days?

Where will aseptic preparation take place during a shutdown period lasting longer than 5 days

What is their current aseptic manufacturing capacity (number of end doses or UTE's per day)?

If UTE's, what UTE is allocated for Syringe, IV Bag and Infuser

What is their current demand for aseptically prepared drugs – i.e. average number of end doses requested per day?

What is their forecasted demand over the next three years in number of end doses per day?

Do you have a Hospital Pharmacy Transformation Plan?

Do you have an aseptic manufacturing licence?

If you do not have an aseptic licence do you have any plans to apply for an aseptic manufacturing licence in the next three years?

Freedom of information Request

c preparation of drugs in the hospital pharmacy (excluding Nutrition)
