Subject: Use of Open Source Technologies

REQUEST & RESPONSE

I am a part time MSc Health Informatics student at Yorkshire Centre of Health Informatics. As part of my MSc project I am undertaking research into take up of using Open Source Software and Technologies within the NHS.

I notice that you were successful in securing Integrated Digital Care Technology Fund funding details which details of are below.

Safer Hospitals, Safer Ward

Project Name: Electronic Modified Early Warning System (eMEWS) Project
Type: Digital Records (Single Organisation) Funding Awarded: £787,000

Safer Hospitals, Safer Ward

Project Name: Electronic Prescribing (ePrescribing) Project Type: Electronic Prescribing Funding Awarded: £827,000

I would really appreciate it if you could answer my quick online survey regarding your experiences of this?

The link to the survey is below:

<http://tinyurl.com/gm7y9eg>

The survey will take 5 minutes or less to complete and you will be contributing towards a great project.

If you do not answer the online survey I would appreciate you completing the following questions.

1. Does your organisation have an Open Source Strategy?

We utilise some open source technologies but do not have a strategy in place.

2. What Software and Technologies did you choose for your Integrated Digital Care Technology Fund funded projects?

Patient TRAK & JAC EPMA

3. Is the software and technology you have used for your project an Open Source Product?

No

4. Does the software / technology interface with another system? If so is the interface based on Open Standards / Open APIs?

Yes
