Subject: Public cloud

REQUEST & RESPONSE

1) Do you know about the Government's Cloud First policy?

Yes

2) Is your organisation using a public cloud for any area of your IT infrastructure?

Yes

3) What percentage of your IT infrastructure has already been migrated to the public cloud?

Less than 25%

4) Which area(s) of your organisation's IT infrastructure has/have been migrated (in part or in whole) to the public cloud? Select all that apply.

- Application(s)
- Also implementing Azure directory cloud services and o365 for back office collaboration.

5) If you are not 100% cloud first, what is your timeline to migrate the rest of your infrastructure to the public cloud?

Not known at this time

6) What barriers to public cloud adoption have you experienced? Select all that apply.

- Security/compliance concerns
- Budget constraints
- Inability to prove return on investment (ROI)
- Need to continue supporting old, legacy technology
- Vendor lock-in (with a cloud provider)

7) How many monitoring and management tools are you currently using to gain visibility into your IT infrastructure?

9

8) Are you able to use the same monitoring and management tools for on-premises infrastructure and cloud environments?

In some cases yes but not for all tools

9) What are the biggest challenges you face when monitoring and managing your public cloud environment? Select all that apply.

- Uncertainty where data (assume this should say data) resides
- Protecting and securing the cloud environments
- Performance downtime
- Determining the most suitable workloads to move to the cloud

10) Are you seeing the expected ROI from public cloud adoption?

Still to be determined
