Date: 31/05/19
Subject: Using a healthy child for clinical training

REQUEST & RESPONSE

1. Under what if any circumstances would you use a healthy child for the training of clinical or medical staff.
none
2. Would a tutor be able to use their own child, if so, what age would the child have to be?
n/a
3. Would you risk assess the situation? If so, how and why?
n/a
4. Under what circumstances would the Trust provide a manikin?
Answer: Mannequins are frequently used by the Trust in the delivery of clinical skills simulation. Mannequins are used to cover the delivery of practical skills from part task trainer to full immersive simulation.
5. If a manikin were provided, would the tutor have the option to use a child of their choosing?
Answer: The Trust has a number of child mannequin's available covering neonatology, babies of normal gestation up to early teenage years
6. Under what circumstances would the use of CCTV cameras be acceptable to be used when a child under the age of 4 is used for clinical or medical training?
n/a
