Date: 31/01/18
Subject: Female Genital Mutilation incidents

REQUEST

Could you please supply me with information regarding Female Genital Mutilation incidents dealt with by the trust. In particular, I would like to know:

1. How many cases of FGM has the trust treated/been made aware of in the past five years? (From January 1, 2013)? If this could be broken down annually, I would be grateful.

RESPONSE

We are unable to provide the information you require as to release this data could lead to the identification of the person(s) involved due to the low numbers involved, and would breach the Trusts obligations under the Data Protection Act 1998. Accordingly, this aspect of your request is exempt from disclosure under the terms of Section 40(2) of the Act.
