REQUEST

Thank you for providing me with a list of trusts you support as a Lead Employer Trust. Can i please clarify, my understanding of this arrangement is that a single trust (yourselves) holds contracts for junior doctors within specific trusts, providing a central point as part of an agreement. From this, it is surprising that St Helens works with all of the listed trusts, especially as they are spread across regions and geographically would not be within your area. - Can you please confirm that the list of trusts provided are indeed support by yourselves and you provide JDs to the stated trusts

RESPONSE

The Trust confirms that our previous response is accurate.
