From: Commercial  
Date: 17/04/19  
Subject: Waste management

## REQUEST

I was wanting to know what waste management company you use to collect your clinical waste within the dental sector. The clinical waste I am referring to is the contaminated sharps and the consumables.

## RESPONSE

What waste management company you use to collect your clinical waste within the dental sector? The clinical waste I am referring to is the contaminated sharps and the consumables.

St Helens and Knowsley Teaching Hospitals NHS Trust have a contract with Stericycle for the removal of all clinical waste (including sharps and consumables)
