Subject: Radiology-extravasation threshold rates

REQUEST

FOI REQUEST TO RADIOLOGY DEPARTMENTS

Criteria. Radiology departments who administer IV contract media for radiology procedure.

Background. South Tees NHS Trust would like to set a threshold number regarding extravasations during administration of IV contract media to trigger an internal investigation.

Question. Do other trusts have a threshold number and/or criteria regarding extravasations during administration of IV contract media to trigger an internal investigation?

Point of contact (POC). Julie Clark - CT/MRI modalities lead.

RESPONSE

No – we do not have a set number of extravasations that set off an internal investigation.
