Subject: Assault attendances to Emergency Department 2018

## REQUEST

I write to you on behalf of the Violence Research Group of Cardiff University. We are conducting an annual national study of attendances to Emergency Departments for assault-related injury and would be grateful if your department could provide us with attendance data for 2018. This data will be used, as in previous years, to analyse trends in violence in England and Wales from injury perspective. You can read more about the group and how your data has been used by following this link:  
<http://www.cardiff.ac.uk/violence-research-group>

The data we require are as follows (for period 1st January 2018 and 31st December 2018) in an electronic format that allows us to read the data into a database. Many hospitals respond to our survey and provide data in the form we require. Preferably this format is in an excel file or comma separated text file.

We require the gender of the patient (M or F), the date that they attended due to assault (dd/mm/yyyy) and their age. Age can either be numerical to the nearest year (preferred) or in age bands ("0-10", "11-17", "18-30", "31-50", "51+"), we can also accept date of birth.

To calculate the level of assault-related injury in England and Wales we also require the total number of attendances for any reason in the year of interest, i.e. 2018.

## RESPONSE

Total Attends 2018  
114,058
