Subject: Male circumcisions performed

REQUEST

1. Please provide information on all male circumcisions performed by the trust in financial year 2015-2016 - to include age and primary diagnosis (coding plus text description). If you choose to age band your response rather than provide a full list, please use the following age groups: 0-4, 5-9,10-17, and 18+ , advising the number of times a diagnosis was applied in each age group.

* We are unable to provide the information you require as to release this data could lead to the identification of the person(s) involved due to the low numbers involved, and would breach the Trusts obligations under the Data Protection Act 1998. Accordingly, this aspect of your request is exempt from disclosure under the terms of Section 40(2) of the Act.
