REQUEST

Firstly, please indicate the total annual income your Trust has received from private patients by financial year since 1 April 2010 and up to 1 October 2017 (Q1 and Q2 2017/18). Please also indicate what percentage the annual income from private patients has been as a percentage of total income your Trust has received in each of those financial years.

Secondly, please indicate the number of private patients your Trust has treated by financial year since 1 April 2010 and up to 1 October 2017 (Q1 and Q2 2017/18). Please also indicate what percentage this is of all patients treated by your Trust in each of those financial years.

Thirdly, please provide details of any investment your Trust has made in facilities to treat private patients since 1 April 2010.

For my first and second queries I attach an Excel document with a table for ease of inputting the data. I would be most grateful if you would please use it should you find that format helpful.
