Subject: St Helens Local Plan

## REQUEST

The proposed St Helens local plan 2018 - 2033) forecasts a significant increase in population and economic activity. Have the council engaged the trust in the proposed plan? Have the trust undertaken an impact assessment? If so, what is the output of impact assessment? Does the trust have sufficient resources available to service proposed development?

## RESPONSE

- Whilst we do generally work collaboratively with all our public sector colleagues we have not been engaged with the “St Helens local plan 2018-33” document you quote. We therefore have not undertaken an impact assessment, therefore there are no outputs and we are unable to establish the resource requirements needs if any.
