Subject: Electric Vehicle Charging

## REQUEST

Please can you help me with my study?

- 1) Does your organisation already offer charging facilities (Electric Vehicle Charging Points EVCP) for electric vehicles and if so, how many charge points?
- 2) If there is currently no charging provision, what plans do you have to install EVCP and when?
- 3) Will the charge points be for fleet usage or public charging?
- 4) Within your organisation, which department is responsible for the selection and installation of EVCP?

## RESPONSE

1. Presently our organization does not offer charging facilities for electric vehicles.
2. There are not any future plans to install electric charging facilities within the Trust; however the issue is reviewed on a regular basis.
3. See Above
4. Contracts and Facilities Management Team of the Trust would be responsible for the selection and installation of EVCP along with the cooperation of New Hospitals.( PFI Partners)
