REQUEST

1.How many people/patients have been seen by the trust who are believed to have had female genital mutilation (FGM) carried out upon them (eg injuries/wounds/scars associated with FGM)?

Please provide figures for each year for the last 5 years. Please specify how many were under 18 – and how many were 18 and over.

2.How many people/patients/cases have been referred to other bodies eg social services/police because of a belief FGM has been carried out? Please detail which bodies the cases were referred to.

3.Please provide details of how many/the percentage of medical staff eg doctors/nurses/midwives who have received training relating to FGM.

4.Please provide details of what that training involves – including any relevant paperwork/handouts/training literature.

RESPONSE
