Subject: LINAC Radiotherapy Machines

REQUEST

1. How many linear accelerator (LINAC) radiotherapy machines does the Trust have and how many have the following capability:
 - IMRT (Intensity-Modulated Radiation Therapy)
 - CT based IGRT (Image Guided Radiation Therapy)
 - Stereotactic Radiotherapy
2. How many LINACS are 8 years old or over, and 10 years old and over respectively?
3. Does the Trust have an adequate replacement plan to ensure each LINAC is in operation for a maximum of 10 years and that the replacements are planned in a timely manner?
4. What tumour sites are each of the machines being used for and what proportion of patients with each tumour type receive these techniques?

RESPONSE

1. How many linear accelerator (LINAC) radiotherapy machines does the Trust have and how many have the following capability:
 - IMRT (Intensity-Modulated Radiation Therapy)
 - CT based IGRT (Image Guided Radiation Therapy)
 - Stereotactic Radiotherapy

None

2. How many LINACS are 8 years old or over, and 10 years old and over respectively?

None

3. Does the Trust have an adequate replacement plan to ensure each LINAC is in operation for a maximum of 10 years and that the replacements are planned in a timely manner?

N/A

4. What tumour sites are each of the machines being used for and what proportion of patients with each tumour type receive these techniques?

N/A
