Subject: Treatment of Hepatitis C

REQUEST & RESPONSE

I have a request regarding treatment of Hepatitis C, does your trust treat Hepatitis C ? **Yes**

How many patients with Hepatitis C are registered, or recorded as under you care? **64**

By way of explanation, I am hoping to understand the number of patients with the disease that are waiting for treatment, as well as in treatment. Any figure you could supply to answer this would be helpful.

17

Please could you supply the following information, for patients with hepatitis C, for the last month if possible. Please use the tables to enter by genotype as possible thank you.

We are unable to provide the information you require as to release this data could lead to the identification of the person(s) involved due to the low numbers involved, and would breach the Trust's obligations under the Data Protection Act 1998. Accordingly, this aspect of your request is exempt from disclosure under the terms of Section 40(2) of the Act
