Subject: e-learning / online learning management system

REQUEST & RESPONSE

1. Is your organisation currently using an e-learning / online learning management system?

Yes

2. If yes, who provides the system and who supplies the system?

The Trust currently accesses 2 Learning Management systems for the delivery of on-line learning.

- Oracle Learning Management (OLM), this is provided as part the NHS Electronic Staff Record (ESR) system.
- A Moodle platform. Developed and supported/administered in house by the Trusts' Health Informatics Service.

3. When does the current contract come to an end?

As both systems are effectively in-house, there is no contractual arrangement.
