Subject: End-of-life payments

## REQUEST

1. The percentage of patients who have died on the Trust's end-of-life care plan against the Trust's target for the number of patients who should die on this plan over the last three years, divided by the year.
  - e.g. Between 1 January 2016 and 31 December 2016, 43 per cent of patients died on the plan against a target of 35 per cent.
  - Note: If no such target exists, please make this clear.

**Approximately 50% of patients who died over the past 3years have had their care supported by the Trust's end of life care plan (Individualised care and communication record: ICCR)**

2. The amount received by the Trust, via the Commissioning for Quality and Innovation (CQUIN) system *or similar*, for hitting targets related to its end-of-life care plan for the last three years, divided by the year.
  - e.g. Between 1 January 2016 and 31 December 2016, the Trust received £X via CQUIN for achieving goals involving its ICP.
  - Note: If no such payments were made, please make this clear.

**There is no set target for the use of the ICCR. There is no CQUIN for end of life care in this organisation.**
