Subject: Delirium protocols

REQUEST

I am conducting a project for my MsC in advanced nursing practice which involves looking at Delirium protocols from various NHS trusts. Therefore under the freedom of information act please could you send me a copy of your protocol/guidelines for the treatment of delirium in adults, either via email or post?

RESPONSE

Please find attached our dementia/delirium Find, Assess, Investigate and Refer form. The collection's purpose is to improve the identification of older patients with dementia and delirium, to monitor appropriate assessment and to prompt appropriate referral and follow up after they leave hospital.
