REQUEST

I am Terry, a Volunteer at OCD Action. I am currently helping conduct research on CAMHS and transitioning and is wondering if I could request some information from your NHS Trust? Please find the questions below:

1. Do you provide CAMHS (Child and adolescent mental health service)?
2. If you do offer CAMHS, what is the age threshold for people receiving OCD treatment within CAMHS?
3. In addition, what measures do you have in place for transitioning from CAMHS to Adult Mental Health Services with regard to OCD?

RESPONSE

This service is run by North West Boroughs Healthcare NHS Trust
