How many changes do you implement each month for your EPR?

N/A

How much of your regression testing is covered by automation?

None

Who is your CCIO?

Mr R Pritchard-Jones

Who is your CIO?

Christine Walters

What is required to become an IT Services supplier to your Trust?

The Trust will always aim to ensure best value and quality is obtained and that suppliers selected based upon this. We aim to procure most items via national frameworks, such as Crown Commercial Service, Health Trust Europe and Shared Business Services. Where there is not a suitable framework we will issue a request for quotes or issue a tender. If over £25,000 these will be advertised on Contracts Finder. The Trust does not hold a preferred supplier list and will select the most suitable supplier for any given project.
