Subject: Home care medicines

## REQUEST

Please find attached a short questionnaire about the provision of Homecare from your Trust. I would be grateful if you could answer all the questions in the dedicated sections in the file. Once done, please save and email it back to me.

In case it is not clear, a Homecare medicine delivery service is typically lead by the pharmacy department.

It can be described as being a service that delivers ongoing medicine supplies and, where necessary, associated care, initiated by the hospital prescriber, direct to the patient's home with their consent. The purpose of the Homecare medicines service is to improve patient care and choice of their clinical treatment.

## RESPONSE

Please see attached
